

# BenchPro™ Series

MULTI-PURPOSE DIGITAL BENCH SCALE

The BenchPro Series is not only an optimal solution for retail applications, but also for manufacturing and processing plants needing reliable shipping and inventory management.

Featuring a variety of sizes, from 6 x 10 inches to 24 x 24 inches, and capacities from 15 pounds to 300 pounds, the BenchPro Series provides solutions for many applications. Select BenchPro models can be equipped with a roller ball or roller conveyor top for material processing. A powder coated, mild steel weight platter is available for use in dimensioning system integrations and other applications. The BenchPro is also able to interface with other software programs such as UPS WorldShip® and FedEx Ship Manager® using USB HID PC connection.

Model BP 1214-35P shown with standard ABS plastic weight platter, and optional pole mount and display

Model BP-1818 with ball top shroud

# BenchPro™ Series

MULTI-PURPOSE DIGITAL BENCH SCALE

## Rice Lake's BenchPro™ Series

offers a diverse retail weighing solution. Used in almost every industry around the world, bench scales are sought-after systems due to their adaptability to various applications, environments and operators' skill levels.

Rice Lake's all-in-one digital bench scales offer the following features:

- USB HID POS
- Backlit operator display with tempered glass keypad
- Simple functions such as tare, units switching and zero

*Model BP-1214 with  
remote display*

*Model BP-1214 with  
optional column bracket and post*

*Model BP-1010*

*Model BP-0610*

# Retail Ready

The BenchPro is available in a variety of sizes and capacities, making it ideal for the retail industry. Easily integrate the BenchPro into checkout counters, delis, food service, restaurants, cafeterias and at the point-of-sale (POS).

The BenchPro Series can be equipped with an operator display and customer-facing display for extra POS visibility. The display is protected from everyday use with a tempered glass keypad, making it exceptionally scratch resistant while also repelling water, dust and oil.

The BenchPro offers many benefits, including battery operation and the ability to tare containers. Because of these extra features not typically found in traditional point of sale scales, the BenchPro may be used in compact spaces and a wide variety of applications.
